WEB DEVELOPMENT PROJECTS

TLCshare

- A place for caregivers to organize and share. Once signed in, a blog all users provides a place to share information and experiences. Each user has access to a calendar, “to-do” list, list of medications, address book and more.
- HTML, CSS, JavaScript, Ruby, Ruby on Rails, Devise, vendor library, jQuery

Middleground - <https://middle-ground.herokuapp.com/>

- This was a group project with two other students at NYCDA. A Ruby on Rails app to help the user find the geographical middle ground between two locations. The app uses Google Maps API, as well as Google Maps Places API, to calculate the middle ground, get transit information, and find places to go to meet. Ruby on Rails application - HTML, CSS, JavaScript, APIs
- HTML, CSS, JavaScript, Ruby, Ruby on Rails, APIs
